Overview

Researcher with 7+ years of experience in Robotics, data science, machine learning, AI, and IoT. Holding a Master of Technology and a PhD in robotics and machine learning, I am committed to staying updated with the latest advancements in AI/ML and Robotics. I possess sound knowledge in Python, JavaScript, TypeScript, Swift, R-language, Tableau, Tableau Prep, Node-red, Heroku, Django, Streamlit, Flask, and MySQL. With my expertise and passion, I strive to solve real-time challenges and deliver outstanding results in every project.

Educations and certifications

***Ph.D.*, Industrial Design, (8.99/10 CGPA)** — **07/2011 – 01/2016**
National Institute of Technology Rourkela (India)

Thesis: Inverse Kinematics Analysis of Robot Manipulators (Application of AI/ML and soft-computing Techniques)

***MTech.*, Mechanical Engineering, (8.63/10 CGPA),** — **07/2007 – 06/2009**
National Institute of Technology Rourkela (India)

Thesis: Artificial intelligence neural network application for the prediction of kinematics of robot manipulator.

***B.Tech*, Industrial and Production Engineering, (7.02/10 CGPA),** — **07/2003 – 06/2007**
Central University Guru Ghasi Das Bilaspur, (India)

IBM Certification on *Machine learning with python,* *(https://courses.360digitmg.skillsnetwork.site/certificates/01e6e668e9d84673a2c15dbf92d244ec)* — **2021**

Data Science *certifications from 360digitmg, (Certificate No. 360DTMGIN9116, https://360digitmg.com/aispry-ind-verify)* — **2021**

360digitmg certification on *Tableau*, Tableau Prep. (Certificate No. 360DTMGIN7513, https://360digitmg.com/aispry-ind-verify) — **2021**

International Research fellowship

- ***Researcher*** *at Department of Computer Engineering and Systems Science*, University of Pavia, Italy, 2017
- ***Researcher*** *at Department of Robotics and Cybernetic*, Slovak Technical University in Bratislava, Slovak Republic, 2014

Interests

- Data Science
- Machine Learning
- Mobile Robotics
- Industrial Robotics
- Computer vision
- Artificial Intelligence
- Engineering Optimization
- Ergonomics in the Automotive Design
- IoT

Profiles

- GitHub https://github.com/JAGUAR1617
- Google Scholar https://scholar.google.com/citations?user=DRik19cAAAAJ&hl=en
- Orcid https://orcid.org/0000-0002-7382-5463
- Tableau https://public.tableau.com/app/profile/p.jha

Technical Skills

- Active user of Python for AI/ML development
- Frequent user of JavaScript/TypeScript with Webdriverio for BDD and TDD
- Active user of Python with Robot Framework for Automation Engineering
- Actively using GitLab, Agile software development (JIRA)
- Active user of GitLab CI/CD pipeline
- Experience in API Test Automation using **python, robot framework with marshmallow library**
- Good knowledge of automation using **Swift** and **XCUIT Test**
- Personal use of HTML, CSS for front-end development
- R-language for data science and machine learning
- Processing.js, Node-Red for IoT based real time projects.
- Pytorch, TensorFlow, OpenCV for image classifications

Projects

- **Defect Checker:** A pre-trained and fine-tuned version of sentence-transformers/nli-mpnet-base-v2 model on custom dataset for sentence similarity and classification. (Zucitech Software Solutions Pvt. Ltd. Bengaluru, India, 2022).
- **AMP Monorail project:** Actively working as software development engineer in test for AMP, Project. AMP - Media Monorail is an interoperability framework used in Disney that supports for moving Media and Metadata across Disney Business Units and outside business partners. (**Disney+**, 2022)
- **Disney Screeners Replatform**: Actively working as software development engineer in test for Screeners UI, Project. An OTT/Web streaming services that offer a breadth of content, including plenty of exciting original movies and TV shows. (Disney+, 2023)
- **Falcon UI (Ongoing):** Actively working as software development engineer in test for Falcon UI, Project. Falcon application is used to transform data feeds from its interconnected database, API, into front-end UI data for its Partners. the generic data is transformed in order to meet the requirements of the consumers (e.g., Google and Amazon).
- Forecasting the prices of agriculture commodities, (Innodatics Inc. USA, 2021), (https://www.linkedin.com/posts/panchanand-jha-7767674b_machine-learning-project-iii-activity-6965160084297408512-J4tb?utm_source=linkedin_share&utm_medium=member_desktop_web)
- Named Entity recognition and feature extraction from medical journals, (Innodatics Inc. USA, 2021), (https://www.linkedin.com/posts/panchanand-jha-7767674b_data-science-project-intern-ii-activity-6965159882337497088-nIwo?utm_source=linkedin_share&utm_medium=member_desktop_web)
- Mortality risk analysis with python and Tableau, (Innodatics Inc. USA, 2021), (https://www.linkedin.com/posts/panchanand-jha-7767674b_data-science-project-intern-i-activity-6965159638925225985-zyaj?utm_source=linkedin_share&utm_medium=member_desktop_web)

National Conference:

- Panchanand Jha, Pallavi Chandrakar and Shyam S. Dewangan, “Energy optimization and inverse kinematic solution of robot manipulator “, National conference on future clean and sustainable energy technologies, CCET, Bhilai, 2016

Development programs and workshops

- Completed 12 weeks online NPTEL course on Strength of Materials with elite certification.
- Completed 4 weeks online NPTEL course on Ergonomics in the Automotive Design with elite certification.
- Completed 8 weeks online NPTEL course on kinematics of mechanisms and machine elite certification.
- Organized one-day National Seminar in the department of Mechanical Engineering, REC Visakhapatnam in 2017.
- Organized Workshop in NDT (Non-Destructive Testing) in REC, Visakhapatnam, 2018
- Online Webinar on ““Disassembly Planning of End-of-Life products - Environmental and Economic aspects” on 13/06/2020.
- 5 days online FDP on “Emerging technologies in robotics”, 26-30 May 2020.
- 5 days online AICTE ATAL FDP on “Introduction to quantum computing and Information”, IIITDM Jabalpur, July-2021

- 5 days online AICTE ATAL FDP on “Industrial Robots for future factories”, NIT Puducherry, Sep-2021.
- 5-days AICTE ATAL FDP on REAL TIME PROBLEMS AND SOLUTIONS WITH AI & ML USING R PROGRAMMING.
- 5-days AICTE ATAL FDP on Microsoft and SAP Tech Saksham FDP on Artificial Intelligence by Techsaksham
- Workshop on Artificial Intelligence and Machine Learning Application in Healthcare organized by the Department of Computer Science and Engineering at NIT Meghalaya during 03rd -07th Sept. 2020.

Prices, Medals, Awards and Honors received

- Research Fellowship from Ministry of Education, Science, Research and Sport of the Slovak Republic in 2014
- Research Fellowship Received CICOPS - Centre for International Cooperation and Development University of Pavia, Italy, 2017
- Ministry of Human Resource Development (Ministry of Education, India), Fellowship for higher education.
